THE BMB STANDS OUT WITH ITS UNIQUE DESIGN AND INNOVATIVE FEATURES, MAKING IT AN UNPRECEDENTED CONCEPT. ITS COMPACT DESIGN ALLOWS FOR EASY STORAGE AND TRANSPORTATION, FITTING IN A BACKPACK, CAR TRUNK, MOTORBIKE STORAGE BOX, SHELF, OR MOUNTED ON A WALL.

THE TRIANGULAR WATER-RESISTANT CASE WITH FOAM PROVIDES AMPLE SPACE FOR A SURVIVAL KIT, KNIFE, MULTITOOL, PELLETS, COMPACT OPTICS, AND OTHER TOOLS.

THE BMB IS POWERED BY A GAS RAM SYSTEM, OFFERING SEVERAL ADVANTAGES OVER TRADITIONAL SPRING SYSTEMS, INCLUDING CONSISTENT VELOCITY, LESS RECOIL, INCREASED ACCURACY, REDUCED NOISE, LESS MAINTENANCE (NO LUBRICATION OF SPRING NEEDED), NO SPRING FATIGUE, EASY COCKING, AND INCREASED DURABILITY.

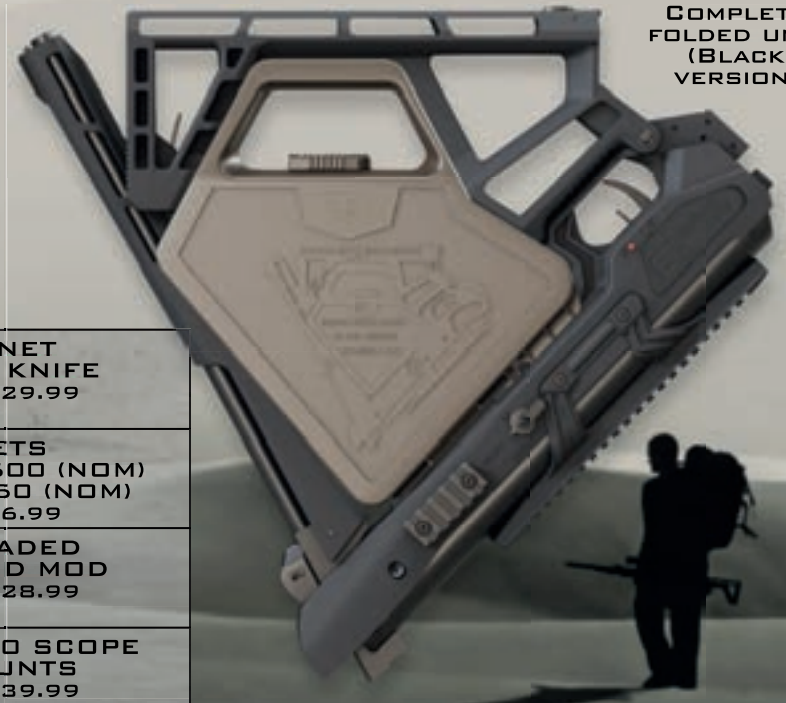

TO ENSURE USER SAFETY AND PREVENT POTENTIAL DAMAGE TO THE GAS RAM SYSTEM, THE ACTION OF THE AIR RIFLE CAN BE DISENGAGED BY A RAPID 2-STAGE PROCESS WITH A PUSH BUTTON AND A SELECTOR SWITCH, RENDERING IT NON-FUNCTIONAL.

THE BMB COMES WITH A PICATINNY RAIL SYSTEM FOR SCOPE MOUNTING AND PICATINNY RAILS ON THE SIDES FOR ATTACHING ACCESSORIES SUCH AS FLASHLIGHTS, LASERS, AND BIPODS. AN OPTIONAL CONFIGURATION INCLUDES A MULTI-PURPOSE KNIFE THAT CAN BE FITTED AS A BAYONET AT THE END OF THE BARREL. THE FIRST-GENERATION KNIFE FITS IN THE CUSTOM CASE DELIVERED WITH THE AIR RIFLE AND WILL BE AVAILABLE AS A STANDALONE ITEM.

THE BLACK BUNKER TEAM IS ALREADY WORKING ON THE DEVELOPMENT OF COMPLEMENTARY PRODUCTS AND NEXT-GENERATION MODELS, WHICH WILL BE INTRODUCED CONTINUOUSLY. WITH THE BMB, BLACK BUNKER HAS SET A NEW STANDARD FOR SURVIVAL AIR RIFLES, COMBINING INNOVATION, DURABILITY, AND PRACTICALITY IN A SINGLE PRODUCT.

## KRYPTON 4500 PSI COMPRESSOR

The Air Venturi Krypton 4500 PSI Compressor improves on the previous version because it features 15% faster fill times than the previous version and an upgraded filter system that removes even more moisture from the air it outputs. Shooters no longer have to worry about the source of air for airguns, paintball guns, or aluminum and carbon fiber bottles and tanks.

The updated technology included in this compressor yields the same great dependability as before, with the advantage that shooters can now spend less time waiting for airguns and bottles to fill, so they can get back to shooting. In addition, the filter system on this model has been improved so that it has increased moisture removal capabilities, resulting in drier, high-quality fill air.

The Air Venturi Krypton features an automatic shutoff setting that can be adjusted for pressures up to 4500 PSI and allows the unit to stop filling once the correct pressure has been reached, reducing the risk of damage from overfilling a bottle or airgun. The compressor is internally water cooled for maximum efficiency and heat dissipation with less wear and tear on the motor.

This compressor is capable of operating off of a standard 110V outlet and has a digital temperature gauge and includes a fill hose with female quick-disconnect fitting, and a kit with additional O-rings and seals.

**What is the Pocket-Shot?**

The Pocket Shot is the evolution of the slingshot. Our patented circular design allows users to load and shoot different projectiles at two to three times the rate of a regular slingshot. Perfect for hunters and recreational use as its tiny size allows you to keep it in your pocket, tackle box, or backpack while storing ammo in its watertight compartment. Up to 350 feet per second, the Pocket Shot is not a toy. Created and built in the USA, our team takes pride in our invention and hope you enjoy it as much as we do.
